Product description

This series can be used in many fields such as in info terminals, medicine, industry, etc..

Features

- The tactile feedback allows comfortable typing.
- Both AT and PS/2 versions are available.
- The extremely flat mechanism and the rear-mounted studs enable the integration in existing housings.
- The silicone mat of the keyboard seals itself against water and dust.
- The keyboard layout is comparable to a laptop layout.
- The layout has the windows keys and integrated LEDs that inform the user of the status of Caps-, Scroll-, and NUM-lock.
- Further language layouts are available on demand.

Technical data

Mechanical data
