Product description

The drawer version KWD-102 is meant for application in 19" panels. There it only takes up the highth of 1 HE. Because of the waterproof housing (IP65) this keyboard is particularly well suitable for rough applications in industry.

The keyboards are even XT compatible. Please specify when ordering.

Features

- A finger mouse can be integrated into the cursor-up key, which makes an additional mouse unnecessary (see closeup).
- The fully extracted drawer swivels 30° downward.
- The metal housing is very durable and it prevents the ingresson of liquids and dust into the rack even when the keyboard is deployed.
- The 2-color moulded key caps are resistant to friction as the inscriptions cannot wear off.
- Highly comfortable operation because of long stroke keys.
- In order to avoid soiling of the key gaps we recommend the protective plastic film.

- The keyboard is AT / DIN5 compatible. PS/2 is available on demand.

- The keyboard can be customer-specifically adapted and is available with other country layouts on demand.

Technical data

Mechanical data

Dimensions	482,6 x 326,2 x 44,4 mm
Housing	Metal
Degree of Protection	IP65
Color	computer grey
Cable Length	150 cm

Keys

Key Technology	carbon contact
Number of Keys	102
Keyboard Layout	MF2-German
Operational Life	10 mio. keystrokes min.
Actuation Force	0,65 N
Stroke Travel	3,25 mm

Electric Data

Interface	PS/2
