Features

- This keyboard has an integrated touchpad with 2 keys instead of the NUM-block. This saves a lot of space and the touchpad is close to the rest of the keyboard.
- Like the other keyboards of the fullsize-range this keyboard is water- and dust proof to IP65 and has a good tactile feel due to the raised keycaps.

— As frontpanel mounted version this keyboard can be easily integrated into an existing housing.

— For further information you can go to the main page of this keyboard range.

Technical data

Mechanical data

Housing	High-Grade Steel
Degree of Protection	IP65
Dimensions	449 x 145,4 x 38 mm
