TVG-Series - Industrial Trackballs and Touchpads for integration in stainless steel frontplates, IP65, USB

Vandalproof Trackball or Touchpad

Images

Product description

The TVG-Series consists of different trackball mouse modules, easy to integrate in the vandalproof stainless steel frontplate.

Please choose one of your favourite products from the list below.

Features

- These frontpanel mounted trackballs and touchpad are vandal resistant, water and dust proof and available in various sizes and materials. The frontplate can be chosen with two or three integrated mouse keys.
- The rear-mounted studs allow simple integration into other panels and housings. The interface is available in all standard interfaces.
