Product description

In order to complete the development of the GFT Series, GeBE Computer & Peripherie GmbH took a step forward: The robust and colorful foils were laminated onto the front plate, milled out of aluminium. The colorful designed foil is nearly as much flat as a beer mat and due to the rear-mounted studs ideal for integration into consoles with a small depth. The keyboard controller GCK-990 offers the

customers a wide range of customized solutions: The user can feel free to exclusively decide about color of the keys, individual programming as well as PS/2 or USB interface.

Technical data

Mechanical data

Housing	Front-panel mounted with integrated studs
---------	---

Housing	Aluminium
---------	-----------

Degree of Protection	IP65 on front
----------------------	---------------

Dimensions	341 x 163 x 15 mm
------------	-------------------

Weight	0,6 kg
--------	--------

Cable Length	180 cm
--------------	--------

Keys

Key Technology	metal dome
----------------	------------

Number of Keys	105
----------------	-----

Keyboard Layout	German or US or France or Swiss
-----------------	---------------------------------

Operational Life	1 mio. keystrokes min.
------------------	------------------------

Actuation Force	2 N
-----------------	-----

Stroke Travel	0,3 mm
---------------	--------

Key Legend	silk screen
------------	-------------

Electric Data

Interface	USB or PS/2
-----------	-------------

Operating Voltage	5 V
-------------------	-----

Operating Current	4 mA
-------------------	------

Environment

Operating Temperature	from 0 °C to +70 °C
-----------------------	---------------------

Guarantee

Certifications	CE
----------------	----
