Product description

In order to complete the development of the GFT Series, GeBE Computer & Peripherie GmbH took a step forward: The robust and colorful foils were laminated onto the front plate, milled out of aluminium. The colorful designed foil is nearly as much flat as a beer mat and due to the rear-mounted studs ideal for integration into consoles with a small depth. The keyboard controller GCK-990 offers the customers a wide range of customized solutions: The user can feel free to exclusively decide about color of the keys, individual programming as well as PS/2 or USB interface.

Features

- The front-panel-versions of the GFT-104/105 series is suited for the use in switchboards and user terminals in the areas automatic production, chemistry, laboratory and medical technology as well as in the environment of information systems.
- Features:
- The german and US layouts are standard. Other country versions, as well as customized adjustments are available on request.

Technical data

Mechanical data

Housing	Built-in module
Housing	Aluminium
Degree of Protection	IP65 on front
Color	aluminium
Dimensions	346,40 x 144 x 15 mm
Cable Length	180 cm

Keys

Key Technology	metal dome
Number of Keys	104
Keyboard Layout	German or US
Operational Life	1 mio. keystrokes min.
Actuation Force	0,2 N
Stroke Travel	0,3 mm
Key Legend	silk screen

Electric Data

Interface	PS/2 or USB
Operating Voltage	5 V
Operating Current	4 mA

Environment

Operating Temperature	from 0 °C to +70 °C
-----------------------	---------------------

Guarantee

Certifications	CE
----------------	----
