Product description

The keyboards of the GTG-73 series come in an attractive and practical housing. The extremely robust plastic housing made of polystyrene is ideal for rugged environments.

Features

- With integrated touchpad.
- Keyboards are plug and play with USB.
- The silicone keypad of the 73 series has an alphanumeric layout with 73 keys, based on a standard PC keyboard. A number pad and the cursor control keys are arranged separately from the main keypad.
- The keypad is very compact. Due to the high-quality contact pills, the keyboard is very reliable, ideal for industrial applications.
- Custom printing and layouts are available for the keypad.
- The layout of the GTG-73 matches that of a standard Windows keyboard.
