XKE-128 Video Switcher
*Comes preassembled

Product description

Eight rows and sixteen columns to build the perfect control panel for your application. Dedicated keys in an intuitive ergonomic layout maximize efficiency, minimize operator errors, and lower training time on any system.

Single units stand readily available for experimentation and prototyping. We support every customer from initial purchase and prototyping through implementation of multiple control consoles.

The XKE-128 ships fully populated with 128 relegendable keys - perfect for testing multiple layout options. Add optional large keys and key blockers to refine the layout. Using an established hardware platform saves time moving from prototype to production.

Features

- Includes software for Windows and Mac
- Free SDK and code samples for Windows, Linux, and Android.
- Activate complex commands in CAD and other drawing programs.
- Addressable blue and red backlighting for each key
- With USB connection
