Product description

The Really Cool silicone keyboard is brand new with an even flatter key stroke.

The hygienic white Really Cool keyboard is our most innovative disinfectable keyboard for uncompromising customers in hospital, clinical and dental environments—wherever infection control is imperative.

It sets itself apart by its key height optimized for easy-wipe cleaning combined with the modern typing feeling of a laptop. In addition, it is fully sealed, seamless and long term resistant to cleaning with surface disinfectants, such as alcohol.

Features

- Ultra-flat keyboard character avoids loopholes for dirt and bacteria.
- Waterproof according to DIN IP 68.
- Easy to clean and comfortable ergonomic operation by noticeable keystroke.
- The completely sealed surface provides more safety, especially in hygiene and sterile areas.
- A suitable mouse device can be ordered.
- An ideal partner in the medical technology, food technology and engineering laboratories. Even fits in the shipbuilding technology as well as in general machinery and plant construction.
