Features

- 6 dual switch ports (12 switches with optional splitter cords)
- Connect to the USB port just like a USB keyboard
- Convenient mounting flanges
- Standard 3.5mm audio type switch ports
- Supports mono and stereo type switch plugs
- Any contact closure can be converted to a USB HID command
- Choose from our selection of hand or foot operated switches or use your own

- Any switch can trigger an action on your computer. Any keyboard shortcut your software uses can have a designated switch (copy, paste, save, open, close). Switches are easily set up to launch applications, open files, or type short lines of text like names, addresses, and account numbers. Switches are connected via Assistive Technology standard 3.5mm (1/8") phone plugs.
