Product description

This washable keyboard is suitable for any environment where improved hygiene is desired. You may easily take it for a standard office keyboard, thanks to its minimalistic looks and pleasant tactile feel and speed.

Infections have less chance of spreading and workstations will be visibly cleaner. Hygienic keyboards are a must in clinical healthcare settings, but Its Cool makes working hygienically achievable and affordable for any environment.

Features

- NEW: silicone cover for your Its Cool Keyboard. The flat and smooth surface provides excellent writing comfort and can be disinfected quickly.
- The Its Cool keyboard can be rinsed out and even submerged in water. It's fully sealed, easy to use and disinfectable. Ideal for use in input areas such as laboratories, hygiene areas, hospitals or pharmacies. Even in industrial areas the keyboard is able to cope with dirty environments.
- Disinfection up to DIN IP 68
- Layout: 99 keys including 12 function keys
- Connection: USB
