KVK-85 silicon-free MAX

Silicone-free stainless steel keypad MAX for use as a desktop version or in 19", 1 HU drawers.

compact

integratable

Metal

for 19 inch

Keyboards

with Trackball

Product description

The keyboard is extremely rugged and can be used in a harsh industrial environment. Since the keyboard does not contain silicone, it is ideal for application in the automotive industry, paint shops, robust control systems, etc.

The stainless steel keyboard MAX can be used as a table-, mounted- or as an insert in our keyboard KWG 19 drawers.

With a keystroke of 1 mm and an operating force of about 2N, it provides a safe and easy usage even when wearing gloves.

Optional: Silicone-based version Short cord

Features

- Compact MF2 layout (US / GER, other layouts on request)
- USB interface
- Good for our KWG-19 drawers
- Degree of protection IP65, Trackball IP68
- High writing comfort keyboard
- Pleasant haptics and tactile feedback
- Ergonomic, compact quadratic 13mm button arrangement include 13mm trackball
