Bezeichnung **KL-105-DE-USB Linkshänder
Tastatur Accura...**

Ausführung **Left handed keyboard, German**

Product description

USB Professional & Programmable Left Handed Full Size Keyboard with Mechanical Key Switches

The keyboard is fully programmable off-line, meaning it is fully programmable without any software required on the computer. Macro's can be created, existing key programming can be changed and a new layer of programming can be created.

The black KL-105 has 105 high quality mechanical keys in a modern brushed metal front panel. The device is programmable, ergonomic and wired via a USB interface.

The keyboard is programmable offline, i.e. it can be fully programmed without additional software. Macros can be created, existing key programs can be changed and new programming layers can be arranged.
