Product description

The X-keys L-trace contains a large trackball in an ergonomically shaped housing. It conforms to the contour of the hand and requires no arm or wrist movement.

High resolution USB laser trackball with 3 buttons, a free spinning scroll wheel and a heavy black ball. Supports two external 3.5mm switches to further customize cursor control.

The trackball is equally suitable for left- and right-handers. And of course for hands of all sizes. In addition to conventional use, the ergonomic trackball is also very good to use for people with disabilities or physical limitations.

The large, waterproof ball combined with the precision bearings provide a "smooth" feel and effortless control. Powerful laser tracking technology enables precise, accelerated mouse movement across the screen.

Features

- Laser trackball in black housing with 3 buttons, scroll wheel and black 57mm ball
- USB connection
- Two additional sockets on the front of the trackball
- Dimensions: 17.15 cm x 9.53 cm x 4.45 cm (height with trackball: 6.73 cm)
- Ergonomic shape. The trackball fits ideally in the hand.
