Product description

Fancy plastic keyboard with 85 keys in a small format with the external dimensions of only 238 x 127 x 16 mm. Good to know: The entire top of the case is made of a closed silicone mat, guaranteeing a high level of protection for the electronic components and contacts.

The KWD-85 keyboard is dust and splash water resistant according to DIN IP68. Due to the installation of a robust stainless steel plate on the back, the device is also suitable for use in aviation or military applications.

Features

- Keycaps and top of the case are made of a continuous silicone mat
- Small external dimensions of 238 x 127 x 16 mm
- Plug and Play via USB interface
- Brightness of key backlighting adjustable with two integrated keys (perfect to use even at night)
- Temperature range between 0 to 60°C, optionally -20 to 60°C
- Lasered key symbols for particularly high abrasion resistance

- Comfortable tactile feedback with 1.5 mm key travel and 0.6N actuating force
