Product description

Trackball meets X-keys! This programmable keypad seamlessly integrates a trackball control for a perfect fusion of functionality. Customize the keys to fit your workflow, programming them for hotkeys, shortcuts, macros, and more. Effortlessly enhance your workflow with a versatile tool designed to be durable, precise and efficient.

Tailor your keypad to your exact needs with 12 fully programmable keys. Download our free MacroWorks 3.1 software to easily assign macros, shortcuts, and complex commands to the programmable keys on the XBE-12 Trackball without requiring advanced technical skills.

Combining tactile precision of a trackball with a customizable keypad, this unique device empowers users to navigate, click, and execute commands seamlessly. With programmable keys and the added convenience of a trackball, our X-keys offers a dynamic solution for professionals, creatives, and enthusiasts alike. Elevate your workflow, reduce hand movement, and unlock a world of efficiency with the X-keys XBE-12 Trackball.

Immerse yourself in a vibrant gaming or work environment with customizable RGB backlighting. Choose from a spectrum of colors and lighting effects. Programmable backlighting also serves as intuitive indicator lights, providing visual cues for various functions and commands.

The XBE-12 Trackball boasts a sleek, high-profile aluminum case that provides a sturdy and durable base for this X-keys.

Take personalization to the next level by easily switching out keys and rearranging the layout to suit your preferences. Add key blockers to organize groupings of keys and serve as tactile guides, allowing your fingers to effortlessly navigate the keyboard.
