Product description

Transform your workflow with full RGB backlighting and 18 customizable keys on the XBE-18 Keypad. Set your keys backlighting to any color or program the lighting to serve as activation lights or dynamic flashes, providing visual cues for your workflow. Experience a new level of productivity as your keypad becomes an extension of your creativity.

Tailor your keypad to your exact needs with 18 fully programmable keys. Download our free MacroWorks 3.1 software to easily assign macros, shortcuts, and complex commands to the programmable keys on the XBE-18 Keypad without requiring advanced technical skills.

Immerse yourself in a vibrant gaming or work environment with customizable RGB backlighting. Choose from a spectrum of colors and lighting effects. Programmable backlighting also serves as intuitive indicator lights, providing visual cues for various functions and commands.

The XBE-18 Keypad boasts a sleek, low-profile aluminum case that not only enhances durability but also provides a slight angle for ergonomic comfort during extended use.

Take personalization to the next level by easily switching out keys and rearranging the layout to suit your preferences. Add key blockers to organize groupings of keys and serve as tactile guides, allowing your fingers to effortlessly navigate the keyboard.

Technical data

Mechanical data	
Housing	Aluminium
Degree of Protection	IP40
Dimensions	76 x 178 x 50 mm
Cable Length	300 cm
Keys	
Number of Keys	18
Electric Data	
Interface	USB
Environment	
Operating Temperature	from -20 °C to +60 °C
Humidity	80% RH non-condensing
delivery form	
Weight	0,455 kp
