Product description

Compact keyboard drawer for cabinets and control units. Sliding tracks enable easy opening and closing. Front cover and und pull-out handle are made of naturally anodized aluminium.

An integrated fixing element locks the drawer in the closed position. In the open position the pull-out drops by 7° and is fixing the drawer automatically.

Thanks to the light weight of only 2.1 kg and dimension of 19", 1 HU and 197 cm installation depth, the drawer is the optimal solution where space is at a premium.

The entire unit is water- and dust protected according to protection class IP65. It is perfectly suited to rugged industrial applications.

You don't have to miss any comfort. The inclination of the pull-out provides ergonomic operation. The key travel of 1.5 mm and actuating force of 0.6 N offer a pleasant haptics and tactility. Furthermore you can rely on the keys: > 1 mio. switching cycles are guaranteed.

The drawer and the integrated keyboard make a perfectly coordinated team.

Technical data

Mechanical data

Dimensions	482.60 x 197.00 x 44.40 mm
Weight	2.1 kg
