Product description

This keyboard has a wide range of uses in many fields due to its robust construction that is virtually indestructible. Such areas are points of information or ticketing machines.

Features

- With their long travel keys with a stroke of 3.5 mm they are the first stainless steel keyboards, which enable comfortable high-speed writing. This makes a more effective and more ergonomic operation possible.
- The laser-etched key caps do not allow the legends to wear off, they cannot be pulled out and are not inflammable.
- The thick front plates of 2.5 mm high-grade steel make these keyboards extremely durable and protects them from effects by force.
- 38 mm Stainless Steel Trackball
- Very long lifespan due to its steel bearing shafts.

Technical data

Mechanical data

Dimensions **410 x 180 x 50 mm**

Degree of Protection **IP65**

Housing **High-Grade Steel**

Cable Length **180 cm**

Keys

Key Technology **carbon contact**

Number of Keys **86**

Keyboard Layout **German or US or Italy**

Operational Life **3 mio. keystrokes min.**

Actuation Force **0,25 N**

Stroke Travel **3,23 mm**

Key Legend **Laser**

Electric Data

Interface **PS/2 or USB**

Additional Interface **for trackball PS/2**

Environment

Operating Temperature **from -20 °C to +60 °C**

Storage Temperature **from -40 °C to +70 °C**

Additional Information

Diameter Trackball **38 mm**
